We would like to welcome our new post-doctoral fellow, **Dr Maureen Kapute**.

Dr Kapute is from Malawi and will conduct her research at the NWU under the guidance and supervision of **Prof Christo van der Westhuizen** for the period of 2018 to 2020. Her joint research will focus on the application of Geo-spatial technologies to foster SDL in blended learning environments.

Dr Kapute is a former Science, Mathematics and Physical Geography secondary school teacher in Malawi and East China respectively, and a lecturer in Physical Geography at Mzuzu University in Malawi. She obtained her PhD in the field Physical Geography and GIS at the East China Normal University.

Welcome and all of the best with your research, Dr Kapute!
