

Zine Sapule with the assistance of Martha van der Walt were kind enough to present a hands-on workshop to members of SDL on research visibility. They also assisted members of SDL with creating ORCID's and connecting their ORCID's to their university profile.

Prof Lloyd Conley also paid a visit to the SDL meeting where he congratulated prof Elsa Mentz and her SDL team on their recommendation of the Research Support Committee to be upgraded to Unit status. The Research Focus Area SDL is very excited about this wonderful news and the new challenges and adventures that this possible upgrade will entail.

---

Zine Sapule met die hulp van Martha van der Walt was gaaf genoeg om 'n praktiese werkswinkel vir lede van SDL oor navorsingsigbaarheid aan te bied. Hulle het lede van SDL ook ondersteun met die skep van ORCID's en die koppeling van hul ORCID's aan hul universiteitsprofiel.

Prof Lloyd Conley het ook die SDL-vergadering besoek waar hy prof Elsa Mentz en haar SDL-span gelukkig was met hul aanbeveling van die Navorsingsondersteuningskomitee om opgegradeer te word na Eenheidstatus. SDL is baie opgewonde oor hierdie wonderlike nuus en die nuwe uitdagings en avonture wat hierdie moontlike opgradering inhou.
